

GKK/GKK-H Straw Mower

GKK/GKK-H 秸秆割草机

Use

Shredder with adjustable offset, for working on grass, leaves, vine and olive remains. The GKK model is a versatile machine, suitable for mowing grass and above all shredding twigs and pruning residue, thanks to the robust structure and equipment. The machine can be moved sideways with a mechanical or hydraulic system (optional). Robust structure suitable for professional use. Maximum application versatility on any type of residue, from open fields to orchards. Rear bonnet can be opened for maintenance purposes. Standard skids screwed to the side.
