

LOG SPLITTER

WX LOG SPLITTER

WX 型劈木机

Uses

This 3-point linkage mounted log splitter series is Ideal for making logs more manageable and preparing fire wood and fence stumps. WX splitter splits in horizontal or vertical positions.

Features :

- Hydraulic operation makes wood splitter easy and safe
- Horizontal or vertical positioning
- Wide blade for multiple log splitting
- Easy for one person to operate.
- HANDS FREE RETURN
- AUTO NEUTRAL: the splitting wedge automatically returns to the start position, ready for another piece. This allows you to clear the split pieces and prepare the next chunk for splitting.
- THREE POINT HITCH: Hook WX300 series on to the back of any tractor with the 3-point hitch mounting pins and take your splitter where you need it quickly.
- VERTICAL AND HORIZONTAL SPLITTING: Splitting on the horizontal and vertical axis is available on models WX530 & WX540. Vertical splitting keeps large heavy wood pieces on the ground, making them
- 4-WAY SPLITTING WEDGE ONLY FOR WX350&WX380: Boost your productivity and make quick work out of chunks by splitting four pieces at once.
- Optional Double Operation Bar
